All the above are accompanied by one click of the finger of the right hand

OUT, OUT, HOLD, KNEE, HOLD, 4 ELVIS KNEES

&1- 2 Step back to right side with right foot, place left foot back to left side so feet are apart, Hold

3-4 Turn right knee in like Elvis, hold

5-8 Elvis knees left, right, left, right.

REPEAT

If you want to do this dance to Randy Travis version of "King Of The Road" from the Traveler soundtrack, there is a very irregular break in the normal rhythm at the 2:00 point which puts you badly off beat.

This happens after the 7th repetition of the dance and it only happens once. To make it work you can add more Elvis knees for approximately 16 "ish" counts (instrumentals with snaps) at this point and then start again from the beginning with his lyrics through the rest of the song.

The extra Elvis knees can be slow, fast, or whatever; be creative. The original version by Roger Miller does not do this and you will do the dance straight through with no problems. With either version you should start the dance with the lyrics so that it phrases out right.

Slight change: (at least its not A,B,C) When you are facing the back for the 4th time, there is a break in the music that we need to fill to get back in the rhythm. Therefore when you get to the knee pops, instead of doing 4 quick ones, do 8 quick ones, then go back to the beginning of the dance. The dance will then end exactly with the music and your last step will be rock forward, back, forward, step together.
